Subject: Re: Microsoft Settlement

Dear Sir:

I will attain the age of 75 this coming July 27 th, and I have been following the US Justice Department's case against Microsoft since its inception, and I believe the proposed settlement is in the best interest of all the parties.

To reject the settlement and to pursue it further can only lead to killing the Goose That Lays the Golden Eggs. If not killed it would be so frightened that it would stop laying Golden Eggs.

I pray the court will approve the Settlement.

Roy S. Alba
